

## Biometric Face Recognition, Fingerprint Time Attendance with Access Control System.

OS878F

- Face
- Fingerprint
- Card
- Password
- Access Control
- Record full Notification

### Quick Shot

- ✓ Model : OS878F
- ✓ Brand : Onspot
- ✓ Face Capacity : 1000
- ✓ Fingerprint Capacity: 5000
- ✓ Card/Password Capacity : 5000
- ✓ Record Capacity : 200000
- ✓ Communication: TCP/IP, USB, [Wi-Fi, GPRS Optional]
- ✓ Voice : 16-bit Hi-Fi voice & sound indication
- ✓ Wiegand : In/Out, 2x Relay

### Likable Features

- ✓ Multiple identification with Face, Fingerprint, card and password together.
- ✓ World-class algorithm, high-speed and accurately identify.
- ✓ Wiegand in and out to combine with a third party device.
- ✓ TCP/IP, USB for communication together with computer and server.
- ✓ User-friendly Experience of voice indicator.
- ✓ Helpful T9 input method, self-service inquiry.

## About the Product

OS878F is a professional and developed access control and time attendance system. It has multiple identification system. It can record full notification and user will get great touch screen experience. It supports opening door function, T9 input method, self-service inquiry, alarm function, 2x relay etc. It is an efficient biometric access device with control mechanism of great quality for accurate fast results and suitable for all levels of enterprises.

## Specifications

| Physical Parameter      |                                       |
|-------------------------|---------------------------------------|
| Model                   | OS878F                                |
| Dimension               | 147*175*62 mm                         |
| Screen                  | 2.4 TFT Capacitive color screen       |
| Power                   | DC 12V/ 2A                            |
| Identification          | Face, Finger Card, Password           |
| Performance Parameter   |                                       |
| Face Capacity           | 1000                                  |
| Fingerprint Capacity    | 5000                                  |
| Card capacity           | 5000                                  |
| Password Capacity       | 5000                                  |
| Record Capacity         | 200,000                               |
| Identification Speed    | <0.5 second                           |
| FRR and FAR             | <1% and <0.0001%                      |
| Communication Parameter |                                       |
| Communication           | TCP/IP, USB, [Wi-Fi GPRS Optional]    |
| Environment Parameter   |                                       |
| Temperature             | 0°C-45°C                              |
| Coldness                | 90% RH                                |
| Miscellaneous           |                                       |
| Voice                   | 16-bit Hi-Fi voice & sound indication |
| Wiegand out             | In and out                            |
| Input                   | Door Sensor and Exit Button           |
| Output                  | Electronic Lock                       |
| Battery Back up         | Optional, Yes                         |
